

# WOODN'T IT BE NICE...

100% handmade  
in the U.S.A.

---

Extraordinary value for retail,  
tee prize, or corporate gift

Personalization available for  
a memorable experience

---

Same size and weight  
as a poker chip

What happens when a 28-year-old American woodworking company buys a laser? They get a chance to combine their passion for creating custom wooden furniture with their love for golf. They then meet up with a seasoned PGA professional with a desire to bring something amazing and original to the golf market. That's what happened in 2017.

In November 2017, The Wooden Ballmarker was created (Patent Pending): designed to match the size and weight of a poker chip, customized to your specifications, and handmade in the U.S.A. In the intervening months, The Wooden Ballmarker has taken off like a rocket. It is already in over 350 pro shops in 42 states and 8 countries, including 25 of the top 100 courses in America. Since then, the company continues to expand its offerings to meet the demands of a consistently growing customer base.

As courses have brought in the Wooden Ballmarker, they have requested additional choices for tee prizes. We have poured our creativity, vision and experience into creating these products. We are proud to present to you our current offerings.
